Local Tax boxes 18, 19, and 20

- Each locality is not uniquely identified on the W2 form. Employees will not see a municipality name in box 20. All W2 forms will have the number “70” in box 20 (Locality name). The identifier “70” relates to Jordan Tax Service which is the Tax Collection Officer for the University of Pittsburgh.

- If you lived in one municipality for all 2013, municipal wage and school district taxes will appear as a combined number.

- If you lived or worked in multiple municipalities in 2013, each municipality change will create a separate line on the W2 form.

- The locality name and local tax withheld is identified on your pay statement. Employees can match the amount of tax shown on the final pay statement of the year to the information on the W2 form (adding together the information for city and school district withholding).

- For information on filing your local taxes, or on PA Act 32 please visit Jordan Tax Services website @ [http://www.jordantax.com/Act32/Individual.html](http://www.jordantax.com/Act32/Individual.html)
