

The Supplier Management Department is pleased to announce the addition of **Gemini Bio-Products** as a University-Wide Contracted Supplier of cell culture products and the availability of special contract discount pricing to all labs and researchers throughout the University.

Gemini Bio-Products has served the cell culture industry for over 20 years and has earned a reputation for delivering the highest quality cell culture products with exceptional customer and technical service. Their products are manufactured in an FDA-registered facility which includes a wide range of animal and human sera, antibiotics, reagents, and other supplements used in cell culture laboratories:

- **Fetal Bovine Serum**
- **Various Animal Sera**
- **Human Serum**
- **Bovine Serum Albumin**
- **Reagents, Supplements, and Antibiotics**

Additional services include:

- **Free Samples**
- **Free Storage (up to 1 year)**
- **Free Heat-Inactivation**
- **Multiple Lot Reservations**
- **Serum Lot Matching**
- **Online Certificates of Analysis**
- **On-Campus Gemini Representative**
- **Accessible and Knowledgeable Technical Support and Customer Service Staff**

For more information, please contact **Matt Whitcomb**, your University of Pittsburgh Gemini Sales Representative, at **(215) 584-6080** or at **mwhitcomb@gembio.com**.
